## Control

Controlling oneself is no easy task,  
When all that's surrounding you is bullshit,  
And you have a celly that all he do is sit up, nitpick, and talk shit,  
I know I can sustain, maintain, and just laugh,  
Just keep in mind that there's a future,  
That all you have to do is just grab,  
Fight, fight, fight, for it's a battle to be fought,  
Just know that when you lose is when you decide to act,  
Keep in mind in fact,  
That you're stronger than that,  
That in which there's people out there that rather see you held back,  
Controlling yourself can be done,  
And yes, it's a fact,  
Just remember to always catch yourself,  
To tell yourself just relax,  
Controlling yourself is no easy task...
