Patience & Discipline

Patience and discipline is one and the same,
Cause if you think,
Ponder,
Our conclusions should come out the same,
No matter the example
The character is twin
The meaning is resistance,
Waiting,
And words of the same
Just one name is patience and the other called discipline
Name of the game is to be slow to speak, but quick to listen
If you ever figure to get out the situation, that you alone done put yourself into,
I guess that's just what happens
When I don't want to listen...
